

Troy Elbert, REMSA Director

President, Herzog Services, Inc.

Elbert first began his career with Herzog as an ultrasonic, non-destructive rail technician in 1997. In 2013, he was named as coinventor on patents covering ultrasonic phased array inspection for railroads. Troy served as Assistant Vice President of Operations from 2010 to 2016, until he was promoted to President of Herzog Services, Inc. and Herzog Services of Canada, Ltd. Mr. Elbert earned a Bachelor of Science in Electrical Engineering from Missouri Western State University and is also American Society of Nondestructive Testing (ASNT) NDT Level III certified.
